

Jason Wolfe

IT Director & Tech Executive

Transformations Strategies	Thought Leadership	Feedback culture	Knowledge Sharing	Mentoring	Accountability
----------------------------	--------------------	------------------	-------------------	-----------	----------------

I am a passionate Mentor Leader. Highly proficient in empowering teams with lean processes and practices. I bring more than 20 years of diverse experience and a proven track record in Enterprise planning and managing projects that transform business ideas into reality. I believe that the strength of your organization is in your people. Creating impactful teams to work with clients and create unique innovations is where I thrive. I am seeking to join an organization focused on there client by creating a strong culture of empathy and knowledge sharing.

Career Highlights

- Large Scale Cloud Innovations :** Implemented Truth Point infrastructure on the cloud. Migrated code management & deployment process to the cloud for ConvergeOne. **Reduced Datacenter and system maintenance costs by 65% on Code Management.**
- Data Analytics , Large-Scale Mobile offerings & Enerprise Customer Leadership:** Oversaw the Production of a Nurse Round product that eventually sold for over \$3M to a partner organization. Implemented ConvergeOne's company cloud-based ITSM system
- Digital Transformation:** Transformed Sony Eriksons platform testing in Lund. **Decreasing FTE needs and improving platform CI/CD delivery from weeks to days.**
- Culture of Knowledge Sharing:** For Black Knight Financial & ConvergeOne established doc standards, Knowledge libraries and Tech Summits for development increasing team impact and **reduce onboarding from 30 days to 10 days.**
- Leadership through Mentoring and Accountability:** Improved Team engagements and confidence on projects by implementing a new Goals & Activities process.

Professional Experience

ConvergeOne -- Bloomington, MN June2016 to Present
